Price per chargeable kg (actual weight or L×W×H cm ÷ 6000, whichever is higher), general goods; d = working days from the day after sailing (air: from arrival at our China warehouse) until delivery. • on-time guarantee: written delay compensation. Smaller shipments cost a little more per kg, bigger ones less — all sizes at linkorae.com/price-list.

### Surcharges, written down

- **Cartons to a home address:** USD 5 per carton. Business addresses and Amazon warehouses: no address surcharge.
- **Oversized freight:** home or business, same price. Restricted-access sites (schools, farms, construction sites) can carry a carrier delivery fee — confirmed before you book.
- **Remote ZIPs, over-size cartons:** a carrier fee per carton, shown in its own line on your quote.
- **Only if it happens:** storage, redelivery, address change, delivery appointment, waiting time — at the carrier's actual cost.

### How the price works

- Rates update every Monday (China time).
- Your cargo is billed at the rate of the week it reaches our China warehouse, on the size and weight we measure there.
- That rate is not changed after your cargo arrives.
- Pieces over 200 cm or 400 kg need a forklift at delivery (US trucking rule).
